**About Benchmark**

Benchmark’s mission is to enable food producers to improve their sustainability and profitability.

We bring together biology and technology, to develop innovative products which improve yield, quality and animal health and welfare for our customers. We do this by improving the genetic make-up, health and nutrition of their stock - from broodstock and hatchery through to nursery and grow out.

Benchmark has a broad portfolio of products and solutions, including salmon eggs, live feed (artemia), sea lice treatments, training and data management tools. Find out more at [www.benchmarkplc.com](http://www.benchmarkplc.com)
