Summons for Written Resolution – Court Sale Proceedings and Credit Bidding on the Rigs

We refer to:

- (i) the USD 916,100,517 7.50 per cent. Senior Secured Bond Issue 2014/2019 with ISIN NO 001 070098.2 (the “**Existing Bonds**”; the holders thereof being the “**Existing Bondholders**” and the bond agreement in relation thereto being the “**Existing Bond Agreement**”) between Oro Negro Drilling Pte. Ltd. (the “**Existing Bond Issuer**”) and Nordic Trustee AS (previously Nordic Trustee ASA) (the “**Bond Trustee**”) on behalf of the Existing Bondholders; and
- (ii) the USD 50,000,000 12 per cent. Super Senior Callable Liquidity Bond Issue 2019/2020 with ISIN NO 001 0841505 (the “**Existing Liquidity Bonds**”; the holders thereof being the “**Existing Liquidity Bondholders**” and the bond agreement in relation thereto being the “**Existing Liquidity Bond Agreement**”) between ORO SG Pte. Ltd. (the “**Existing Liquidity Bond Issuer**”), NT Services AS as Settlement Manager, and the Bond Trustee on behalf of the Existing Liquidity Bondholders.

Capitalized terms used herein (including any attachment hereto) shall have the meaning assigned to them in the Existing Bond Agreement, the Existing Liquidity Bond Agreement and applicable Security Documents unless otherwise defined herein.

This summons for a written resolution (the “**Summons**”) is hereby issued at the request of an ad hoc group of Existing Bondholders (the “**Ad Hoc Group**”) that represents that its members hold, as of 1 October 2019, in excess of 50% of the aggregate outstanding principal amount of the Existing Bonds and in excess of 50% of the aggregate outstanding principal amount of the Existing Liquidity Bonds.

The information in this Summons for Written Resolution is provided by the Ad Hoc Group, and the Bond Trustee expressly disclaims all liability whatsoever related to such information.

1. BACKGROUND

Reference is made to the current recovery process in respect of the Existing Bonds after Events of Default were declared under Clauses 15.1(a), 15.1(f), 15.1(g)(i), 13.7(a), 13.4(b)(iii)(a) and 13.4(b)(iii)(d) of the Existing Bond Agreement in 2017 and the entire amount outstanding thereunder (including accrued interest, costs and expenses) was declared due for immediate payment pursuant to an acceleration notice delivered 14 November 2018.

The Ad Hoc Group's aim is to maximise the value of the Primus, Laurus, Fortius, Decus and Impetus rigs (the "**Rigs**") in order to secure the interests of the Existing Bondholders (and procure recovery for the Existing Liquidity Bondholders). In this context, the Ad Hoc Group is proposing the recovery plan included in this Summons involving (i) a public auction of the Rigs under the auspices of the Admiralty Marshal in the Bahamas; (ii) in the event that an acceptable third party offer to purchase the Rigs is not received, a credit bid for the Rigs by the Bond Trustee (on behalf of the Existing Bondholders) whereby the obligations of the Existing Bond Issuer and the rig owners (the "**Existing Rig Owners**") under the Existing Bond Agreement would be written down against the amount of the credit bid, such amount to be an amount up to the entire amount outstanding under the Existing Bonds (including previously capitalised interest, any accrued but uncapitalised interest and all other sums outstanding); (iii) if the credit bid is accepted, a simultaneous transfer of each of the Rigs to respective new rig-owning SPVs (each a "**New Rig Owner**"), all such New Rig Owners to be wholly-owned by a holding company (the "**SPV Holdco**") incorporated and controlled by a subsidiary of Stiftelsen NT Refectio, (a foundation/trust (Norwegian: *stiftelse*) established solely to secure bondholders' interests in enforcement proceedings) on behalf of the Existing Bondholders; and (iv) issuance by the SPV Holdco of recovery bonds in the amount of the credit bid, and liquidity bonds in the amount of the Existing Liquidity Bonds, in order to source recovery from the Rigs to the Existing Bondholders and Existing Liquidity Bondholders.

The proposal also includes increasing the maximum amount of Existing Liquidity Bonds that may be issued under the Existing Liquidity Bond Agreement, in order to allow for a possible future tap issue thereunder to cover Recovery Expenses (as defined below) where access to such funds will be needed prior to the finalization of the auction process.

2. COURT SALE PROCEEDINGS IN THE BAHAMAS AND CREDIT BIDDING ON THE RIGS

The sale of the Rigs under the auspices of the Bahamian Admiralty Marshal has the effect of cleansing the Rigs from maritime liens and other charges or encumbrances (receipt of "clean title"). Advisors to the Ad Hoc Group believe that obtaining clean title will benefit an onward sale process or potential engagement of the Rigs through bare-boat or time charters. Such cleansing is normally considered to reduce risk of proceedings and actions against the Rigs, although the recognition of a clean title from a sale under the auspices of the Bahamian Admiralty Marshal must be specifically considered in the relevant jurisdiction for engagement.

The Existing Bondholders are asked to authorize the Bond Trustee to have the Rigs sold under the auspices of the Bahamian Admiralty Marshal by way of a public auction process. In the event that an acceptable third party offer to purchase the Rigs is not received, the Bond Trustee will, on behalf of the Existing Bondholders, submit a credit bid for the Rigs, whereby the obligations of the Existing Bond Issuer and the Existing Rig Owners under the Existing Bond Agreement will be written down against the amount of the credit bid. The Existing Bondholders are asked to authorise the Bond Trustee to submit a credit bid for the Rigs in an amount up to the entire amount outstanding under the Existing Bonds (including previously capitalised interest, any accrued but uncapitalised interest and all other sums outstanding thereunder).

According to Bahamas law, the following claims will rank ahead of the Existing Bondholders' mortgage over each Rig, and will need to be paid in order for the Existing Bondholders to obtain clean title to the Rig: (i) wages due to crew members, in respect of current and previous employment on the Rig; (ii) port, canal and other waterway dues and pilotage dues; (iii) claims against the owner of the Rig in respect of loss of life or personal injury occurring, whether on land or on water, in direct connection with the operation of the Rig;

(iv) claims against the owner, based on tort and not capable of being based on contract, in respect of loss of or damage to property occurring, whether on land or on water, in direct connection with the operation of the Rig; (v) claims for salvage, wreck removal and contribution in general average; and (vi) claims in respect of bunker and other necessities provided to the Rig. The Ad Hoc Group is not aware of any such claims. To the extent any such claims are received during the public auction process (which involves advertisement of the intended sale in two maritime publications of general distribution), any such claims shall constitute Recovery Expenses (as defined below).

The Bond Trustee will receive control over the Rigs on behalf of the Existing Bondholders by having the clean title to each of the Rigs transferred to respective New Rig Owners in accordance with the process described under item 4.

3. EXPENSES AND FUNDING – TAP ISSUE UNDER EXISTING LIQUIDITY BOND AGREEMENT

Additional funding may be required in connection with maximising recoveries for the Existing Bondholders. Accordingly, the written resolution is requested to approve a funding mechanism for the purpose of meeting fees, costs, expenses and disbursements incurred in connection with the protection, preservation and/or enforcement of the Existing Bondholders' rights and pursuing recoveries (together, the "**Recovery Expenses**"). Recovery Expenses may include (but shall not be limited to) the following:

- (a) the fees, costs, expenses and disbursements incurred by the Bond Trustee, including in respect of its own advisers, agents, delegates and counsel and those of the Ad Hoc Group (collectively, the "**Advisors**")¹, including any such fees, costs, expenses and disbursements arising in respect of any legal proceeding concerning the Rigs or the current recovery process, including (without limitation), legal fees in connection with any sales process, and in connection with the Mexican concurso proceedings of Integradora de Servicios Oro Negro, S.A.P.I. de C.V. and Perforadora Oro Negro (the "**Concurso Proceedings**");
- (b) the fees, costs, expenses and disbursements arising out of the operation, management, maintenance, crewing and berthing of the Rigs; and
- (c) all other payments, costs, fees and expenses that, in the opinion of the Bond Trustee in consultation with the Advisors, are necessary for the purpose of achieving a recovery to the Existing Bondholders.

3.1 Increase of maximum amount of Existing Liquidity Bonds that may be issued under the Existing Liquidity Bond Agreement

The Existing Bondholders and the Existing Liquidity Bondholders are hereby requested to approve an increase in the maximum amount of Existing Liquidity Bonds that may be issued under the Existing Liquidity Bond Agreement from USD 50 million to USD 150 million (in each case, exclusive of any Existing Liquidity Bonds issued as PIK interest) by amending the Existing Liquidity Bond Agreement and the Existing Intercreditor Agreement (as defined below) (such increase being the "**Existing Liquidity Bond Agreement Increase**").

¹ The Existing Bondholders previously approved the Written Resolution contained in a summons posted to STAMDATA on 5 December 2017, pursuant to which the Bond Trustee agreed to pay the fees and expenses of Paul, Weiss, Rifkind, Wharton & Garrison LLP ("**Paul, Weiss**"), as counsel to the Ad Hoc Group, as well as the fees and expenses of local advisors engaged by Paul, Weiss.

3.2 Allocation of Tap Existing Liquidity Bonds

The Existing Liquidity Bond Agreement Increase will provide additional headroom under the Existing Liquidity Bond Agreement for a potential issue (or issues) of additional Existing Liquidity Bonds by the Existing Liquidity Bond Issuer (any such additional Existing Liquidity Bonds being “**Tap Existing Liquidity Bonds**”) for the purpose of meeting Recovery Expenses.

3.2.1 First issue of Tap Existing Liquidity Bonds following the Existing Liquidity Bond Agreement Increase

Pursuant to the Existing Liquidity Bond Agreement, the first issue of Existing Liquidity Bonds thereunder was offered to all Existing Bondholders, whilst subsequent tap issues thereunder were offered only to the Existing Liquidity Bondholders at the time of such tap issue. Notwithstanding these allocation principles, the Existing Bondholders and the Existing Liquidity Bondholders are hereby requested to approve an amendment to the Existing Liquidity Bond Agreement such that, following the Existing Liquidity Bond Agreement Increase, the first issue of any Tap Existing Liquidity Bonds thereafter will be offered to all Existing Bondholders (irrespective of whether they are Existing Liquidity Bondholders or not) on the following terms:

- (a) **any Existing Bondholder or Existing Liquidity Bondholder who wishes to be offered Tap Existing Liquidity Bonds in the future must contact the settlement manager (mail@ntservices.no, subject line “Oro Negro Liquidity Bonds - Tap Issue”) within ten (10) Business Days of the date of this Summons, being 18 October 2019**, providing evidence of their current holdings of Existing Bonds as of the date of this Summons, and indicating that they wish to be offered Tap Existing Liquidity Bonds in any future issue thereof (such Existing Bondholder being an “**Opt-In Existing Bondholder**”);
- (b) each Opt-In Existing Bondholder will be invited to subscribe for Tap Existing Liquidity Bonds in the first issue thereof in accordance with the allocation principles described in paragraphs 3.2.1(d) and (e) below, such invite to stipulate the deadline for acceptance;
- (c) any Existing Bondholder who does not express an interest in future issues of Tap Existing Liquidity Bonds as described in paragraph 3.2.1(a) above (and prior to the deadline set out therein) will not be offered Tap Existing Liquidity Bonds in any future issue thereof;

In the first issue of Tap Existing Liquidity Bonds following the Existing Liquidity Bond Agreement increase, the following allocation and oversubscription principles shall apply:

- (d) each Opt-In Existing Bondholder shall be invited to subscribe for Tap Existing Liquidity Bonds *pro rata* based on the proportion that its holding of principal amount of Existing Bonds bears to the total amount of principal outstanding under all Existing Bonds (such proportion being, with respect to such Opt-In Existing Bondholder, its “**Pro Rata Proportion**”); and
- (e) each Opt-In Existing Bondholder will be permitted to submit subscriptions for less than, equal to or in excess of its Pro Rata Proportion of Tap Existing Liquidity Bonds, provided that any Opt-In Existing Bondholder that subscribes for more than its Pro Rata Proportion (an “**Oversubscribed Bondholder**”) shall only be entitled to receive Tap Existing Liquidity Bonds in excess of its Pro Rata Proportion if another Opt-In Existing Bondholder either does not subscribe for Tap Existing Liquidity Bonds or subscribes for less than its Pro Rata Proportion, resulting in unsubscribed Tap Existing Liquidity Bonds (“**Unsubscribed Bonds**”). The settlement manager shall allocate Unsubscribed Bonds *pro rata* among each Oversubscribed Bondholder based on the proportion that the amount of its holding of principal amount of Existing Bonds bears to the aggregate principal

amount outstanding of all Existing Bonds held by the Oversubscribed Bondholders, until the first issue of Tap Existing Liquidity Bonds are fully subscribed.

3.2.2 Subsequent issues of Tap Existing Liquidity Bonds

Any subsequent issue of Tap Existing Liquidity Bonds will be treated as a “Tap Issue” (as defined in the Existing Liquidity Bond Agreement) for the purposes of allocation, and will therefore be offered only to the Existing Liquidity Bondholders at the time of such subsequent tap issue. The following allocation and oversubscription principles shall apply to any such subsequent issue:

- (a) each Existing Liquidity Bondholder shall be invited to subscribe for Tap Existing Liquidity Bonds *pro rata* based on the proportion that its holding of principal amount of Existing Liquidity Bonds bears to the total amount of principal outstanding under all Existing Liquidity Bonds (such proportion being, with respect to such Existing Liquidity Bondholder, its “**Pro Rata Proportion**”); and
- (b) each Existing Liquidity Bondholder will be permitted to submit subscriptions for less than, equal to or in excess of its Pro Rata Proportion of Tap Existing Liquidity Bonds, provided that any Existing Liquidity Bondholder that subscribes for more than its Pro Rata Proportion (an “**Oversubscribed Bondholder**”) shall only be entitled to receive Tap Existing Liquidity Bonds in excess of its Pro Rata Proportion if another Existing Liquidity Bondholder either does not subscribe for Tap Existing Liquidity Bonds or subscribes for less than its Pro Rata Proportion, resulting in unsubscribed Tap Existing Liquidity Bonds (“**Unsubscribed Bonds**”). The settlement manager shall allocate Unsubscribed Bonds *pro rata* among each Oversubscribed Bondholder based on the proportion that the amount of its holding of principal amount of Existing Liquidity Bonds bears to the aggregate principal amount outstanding of all Existing Liquidity Bonds held by the Oversubscribed Bondholders, until the subsequent issue of Tap Existing Liquidity Bonds are fully subscribed.

3.3 Terms of the Existing Liquidity Bonds

3.3.1 Intercreditor principles

The Existing Liquidity Bonds are subject to a *de facto* super senior priority ranking over the Existing Bonds, implemented by way of an intercreditor agreement dated 15 January between the Bond Trustee (as Existing Bond Trustee, Existing Security Agent, Liquidity Bond Trustee and Liquidity Bond Security Agent), and the Existing Liquidity Bond Issuer (as the New Issuer) (the “**Existing Intercreditor Agreement**”), which provides in Clause 2 thereof, *inter alia*, that the Bond Trustee shall apply any payments received or proceeds recovered in respect of the Existing Bonds to purchase Existing Liquidity Bonds (including any Tap Existing Liquidity Bonds) on a *pari passu* and *pro rata* basis until all Existing Liquidity Bonds (including any Tap Existing Liquidity Bonds) are held by the Bond Trustee on behalf of the Existing Bondholders (the “**Existing Intercreditor Application of Proceeds**”). The Existing Bondholders and the Existing Liquidity Bondholders are hereby requested to waive the Existing Intercreditor Application of Proceeds, to the extent that any proceeds received in respect of the Existing Bonds comprise receipt of title to the Rigs by the Bond Trustee on behalf of the Existing Bondholders in exchange for a write-down of the Existing Bond Issuer’s and the Existing Rig Owners’ obligations under the Existing Bond Agreement, as described in paragraph 2 above.

3.3.2 Proceeds; further information

The proceeds from the Tap Existing Liquidity Bonds shall be paid into an escrow account in the name of the account manager pledged in favour of the Bond Trustee on behalf of the Existing Liquidity Bondholders. The Existing Liquidity Bond Issuer shall only be entitled to withdraw amounts from the escrow account to be applied towards Recovery Expenses.

For further information on the Existing Liquidity Bonds, each Existing Bondholder, upon providing evidence of their current holdings of Existing Bonds to the settlement manager in respect of the Existing Liquidity Bonds (mail@ntservices.no, subject line "Oro Negro Liquidity Bonds - Further Information"; +47 22 87 94 00), shall be entitled to receive a copy of:

- (a) the Existing Liquidity Bond Agreement; and
- (b) the Existing Intercreditor Agreement.

4. TRANSFER OF TITLE OF THE RIGS TO THE NEW RIG OWNERS FOLLOWING SUCCESSFUL CREDIT BID

The Ad Hoc Group proposes that the Bond Trustee shall enter into an agreement with the SPV Holdco and the New Rig Owners, with an obligation for the SPV Holdco to issue bonds with a face value up to the entire amount outstanding under the Existing Bonds and the Existing Liquidity Bonds (including previously capitalised interest, any accrued but uncapitalised interest and all other sums outstanding) (to be structured as two separate bond issues, as described below), in exchange for the Bond Trustee transferring title of the Rigs to the New Rig Owners. For a description of the bonds issued by the SPV Holdco, see item 5 below.

Pursuant to the agreement, the SPV Holdco will actively undertake to find a purchaser or charter for the Rigs, and otherwise to maximise recovery from the Rigs by entering into contracts in respect of the Rigs. The sole purpose of the SPV Holdco will be servicing the bonds as further set out in item 5 below.

5. ISSUANCE OF RECOVERY BONDS BY THE SPV HOLDCO AND STATUS OF THE EXISTING BONDS AND THE EXISTING LIQUIDITY BONDS

The Ad Hoc Group proposes a structure whereby following transfer of title to the Rigs to the New Rig Owners, the SPV Holdco will, pursuant to an agreement with the Bond Trustee, be obligated to issue bonds in accordance with the terms laid out below to satisfy the purchase price.

The SPV Holdco will issue new bonds tailored so that they, to the fullest extent practicable, mirror the terms and status of the Existing Liquidity Bonds, save to the extent adjustments are required in order to implement the structure described below:

- (a) The SPV Holdco will issue a super senior secured liquidity bond in an amount at least equal to the entire amount outstanding under the Existing Liquidity Bonds (including any Tap Existing Liquidity Bonds), including previously capitalised interest, any accrued but uncapitalised interest and all other sums outstanding, upon transfer of the Rigs to the New Rig Owners (the "**Recovery Liquidity Bonds**"; the bond agreement in relation to such bonds being the "**Recovery Liquidity Bond Agreement**" and the holders of such bonds being the "**Recovery Liquidity Bondholders**"). The SPV Holdco shall issue the Recovery Liquidity Bonds to the Existing Liquidity Bondholders by way of consideration for the purchase by the SPV Holdco of the Existing Liquidity Bonds.

In order to effect the exchange by the Existing Liquidity Bondholders of Existing Liquidity Bonds for Recovery Liquidity Bonds as described above (the “**Liquidity Bond Exchange**”), any accrued but uncapitalised interest under the Existing Liquidity Bonds shall be capitalised as PIK interest (in the form of additional Existing Liquidity Bonds) on the day of the Liquidity Bond Exchange, and the Existing Liquidity Bond Issuer will thereafter exercise the Call Option (under and as defined in the Existing Liquidity Bond Agreement) in respect of all Existing Liquidity Bonds then outstanding (including Existing Liquidity Bonds issued pursuant to such capitalisation of interest). The Existing Liquidity Bond Issuer shall simultaneously sell all Existing Liquidity Bonds to the SPV Holdco in exchange for the distribution of Recovery Liquidity Bonds to the Existing Liquidity Bondholders on a one-for-one (1:1) basis.

The Existing Liquidity Bondholders are hereby requested to grant the following one-off waivers, to be granted solely in respect of, and in order to effect, the Liquidity Bond Exchange:

- (i) that the notice period of ten Business Days for exercise of the Call Option in Clause 10.2.2 of the Existing Liquidity Bond Agreement be waived, such that no further notice shall be given to the Existing Liquidity Bondholders in advance of the Liquidity Bond Exchange;
- (ii) that the requirement in Clause 10.2.4 of the Existing Liquidity Bond Agreement - that the Existing Liquidity Bond Issuer shall pay to each of the Existing Liquidity Bondholders holding Existing Liquidity Bonds to be redeemed, in respect of such Existing Liquidity Bonds, the principal amount of such Existing Liquidity Bonds and any unpaid interest accrued to the settlement date - shall be waived, to the extent that such Existing Liquidity Bondholders receive Recovery Liquidity Bonds in the amount that would otherwise have been so paid; and
- (iii) that Clause 10.2.5 of the Existing Liquidity Bond Agreement shall be waived, such that Existing Liquidity Bonds redeemed by the Existing Liquidity Bond Issuer thereunder shall not be discharged to the extent such bonds are promptly thereafter transferred to the SPV Holdco pursuant to the Liquidity Bond Exchange.

The Existing Liquidity Bondholders are further hereby requested to approve that, on or before the Liquidity Bond Exchange, the Existing Liquidity Bond Agreement shall be amended such that:

- (iv) the Final Maturity Date (as defined therein) be extended from 8 July 2020 to the date that is the two (2) year anniversary of the issue date in respect of the Recovery Liquidity Bonds; and
- (v) the Final Maturity Date may be extended by up to one (1) year by delivery from the Existing Liquidity Bond Issuer of an extension notice to the Bond Trustee no later than five (5) business days prior to the Final Maturity Date, provided that some or all of the Rigs have not been sold to any third party and that no Event of Default is continuing at such time.

The Existing Liquidity Bonds will remain with the SPV Holdco as a source of recovery against the Existing Liquidity Bond Issuer (see below).

The Recovery Liquidity Bond Agreement will provide that Recovery Liquidity Bonds may be issued up to an amount of no more than USD 150 million (exclusive of any Recovery Liquidity Bonds issued as PIK interest). To the extent that the amount of Recovery Liquidity Bonds issued pursuant to the Liquidity Bond Exchange is less than the maximum amount that may be issued under the Recovery Liquidity Bond Agreement, further Recovery Liquidity Bonds may be issued by way

of tap issues, up to such maximum amount. Such future tap issues will be offered only to Recovery Liquidity Bondholders at the time of such tap issue, and the allocation and oversubscription principles set out in paragraph 3.2.2 above shall apply *mutatis mutandis* to any such tap issue. For the avoidance of doubt, any Existing Bondholder who is at the date of this Summons not an Existing Liquidity Bondholder, and who does not become an Existing Liquidity Bondholder prior to the Liquidity Bond Exchange (by participation in issues of Tap Existing Liquidity Bonds as described in paragraph 3.2.1 above, or otherwise by acquisition of Existing Liquidity Bonds) will not receive Recovery Liquidity Bonds pursuant to the Liquidity Bond Exchange, and will not be offered Recovery Liquidity Bonds under any tap issue thereof.

To the extent that headroom remains under the Existing Liquidity Bond Agreement following the Liquidity Bond Exchange, Tap Existing Liquidity Bonds may be offered by the Existing Liquidity Bond Issuer to the SPV Holdco (which, following the Liquidity Bond Exchange, will hold all Existing Liquidity Bonds) at any time thereafter, for the purpose of providing liquidity in the existing rig owning structure, to the extent required in connection with meeting any Recovery Expense.

- (b) The SPV Holdco will issue senior secured bonds in an amount equal to the transfer price of the Rigs (the “**Recovery Bonds**”; the bond agreement in relation to such bonds being the “**Recovery Bond Agreement**” and the holders of such bonds being the “**Recovery Bondholders**”), such Recovery Bonds to be allocated to each Existing Bondholder *pro rata* based on the proportion that its holding of principal amount of Existing Bonds bears to the total amount of principal outstanding under the Existing Bonds.

Should the write-down of Existing Bonds (such written-down bonds being “**Write-Down Existing Bonds**”) and the simultaneous issue of the Recovery Bonds occur on any date other than an interest payment date in respect of the Write-Down Existing Bonds:

- (i) interest accrued on the Write-Down Existing Bonds during the interest period then in effect in respect thereof (the “**Relevant Interest Period**”) shall be written down to zero; and
- (ii) the first interest period in respect of the Recovery Bonds shall be deemed to have commenced on the first day of the Relevant Interest Period.

Any amount outstanding under the Existing Bonds following the write down of the obligations of the Existing Bond Issuer and the Existing Rig Owners thereunder pursuant to and in the amount of a successful credit bid shall remain outstanding as a source of recovery against the Existing Bond Issuer and the Existing Rig Owners.

- (c) The Recovery Liquidity Bonds issued pursuant to the Liquidity Bond Exchange and the Recovery Bonds will automatically be allocated to the Existing Liquidity Bondholders and the Existing Bondholders (respectively) in accordance with the principles set out in paragraphs 5(a) and 5(b) above.
- (d) The Recovery Bonds will carry 7.50 per cent interest annually. The Recovery Liquidity Bonds will carry 12 per cent interest annually. Interest accrued pursuant to the Recovery Bonds and the Recovery Liquidity Bonds shall be capitalised as PIK interest (in the form of additional Recovery Bonds and Recovery Liquidity Bonds, respectively), unless the SPV Holdco elects to pay interest in cash on any applicable interest payment date. For the avoidance of doubt, no payments shall be

made in respect of the Recovery Bonds (other than fees, liabilities and expenses of the Bond Trustee and its Advisors in relation thereto) prior to the redemption of all Recovery Liquidity Bonds, pursuant to the terms of the Recovery Intercreditor Agreement (as defined and described in paragraph (i) below).

- (e) Final maturity date of the Recovery Bonds and the Recovery Liquidity Bonds shall be two years from the date of issue, with an option for the SPV Holdco to extend maturity by a maximum of one year in the event that all or some of the Rigs are not sold. Such extension shall be effected by delivery of an extension notice to the Bond Trustee no later than five Business Days prior to the final maturity date then in effect, provided that no Event of Default is continuing.
- (f) A Mandatory Prepayment Event shall occur in the event of a sale of any Rig, in the amount of the net proceeds of any such sale (to the extent the whole or any part of any such proceeds are not, at the discretion of the Issuer, applied to meet Recovery Expenses).
- (g) The SPV Holdco shall grant a fixed charge over all of the shares (100%) in each of the New Rig Owners and a pledge or assignment of its rights as lender under any intragroup loans, in respect of the SPV Holdco's obligations under the Recovery Liquidity Bond Agreement and the Recovery Bond Agreement. Each of the New Rig Owners shall grant a mortgage over each of the Rigs and an unconditional on-demand guarantee in respect of the SPV Holdco's obligations under the Recovery Liquidity Bond Agreement and the Recovery Bond Agreement. In addition, each of the SPV Holdco and the New Rig Owners shall grant a pledge or assignment of: (i) bank and VPS accounts, (ii) agreements with third-parties relating to the Rigs (subject to the terms of any such agreement), and (iii) insurances related to each of the Rigs (the security and quasi-security in this paragraph being the "**Recovery Bond Security**").
- (h) The Recovery Liquidity Bonds will benefit from the Recovery Bond Security on a first priority basis and the Recovery Bonds will benefit from the Recovery Bond Security on a second priority basis. While Recovery Liquidity Bonds remain outstanding, instructions with respect to the enforcement of any Recovery Bond Security in relation to the Recovery Bond Obligations shall require the consent of the Bond Trustee acting on behalf of the Recovery Liquidity Bondholders. The Recovery Bondholders' and the Recovery Liquidity Bondholders' recourse against the SPV Holdco shall be limited to the Rigs, cash balances and the benefit of any agreements relating to the Rigs, such as insurance.
- (i) A waterfall payment structure will provide that any proceeds held or received by the SPV Holdco, including recovery from charter payment or sale of the Rigs, or from the call of the Existing Liquidity Bonds (which shall be held by the SPV Holdco following the Liquidity Bond Exchange), shall (to the extent not applied to meet Recovery Expenses (including indirectly, by way of making intercompany loans to the New Rig Owners, or acquiring Tap Existing Liquidity Bonds in order to fund the existing rig owning structure, in each case in connection with the meeting of Recovery Expenses)) be applied first to the Recovery Liquidity Bonds and then to the Recovery Bonds, such priority to be documented by way of an intercreditor agreement (the "**Recovery Intercreditor Agreement**").
- (j) For more detail in respect of the Recovery Bonds and the Recovery Liquidity Bonds, please see attached indicative terms setting forth the material terms thereof at [Appendix 4](#).

6. APPLICATION OF PROCEEDS OF THE CONCURSO PROCEEDINGS

The Existing Bondholders and Existing Liquidity Bondholders are hereby requested to authorise the Bond Trustee to apply any amounts received by the Bond Trustee, the Existing Issuer or the Existing Rig Owners arising from recoveries in respect of the Concurso Proceedings² to procure that:

- (i) Existing Liquidity Bonds are purchased by the Bond Trustee on behalf of the Existing Bondholders (in order to source funds to the SPV Holdco);
- (ii) Recovery Liquidity Bonds are repaid, until such time as no Recovery Liquidity Bonds remain outstanding; and thereafter
- (iii) Existing Bonds are repaid.

For the avoidance of doubt, no amounts arising from recoveries in respect of the Concurso Proceedings shall be applied to meet Recovery Expenses.

7. THE PROPOSAL
